Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

In claim 3, line 1, "3" appears to be a typo. For purposes of this action it has been assumed that "3" was intended to be --1--.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3-5, 7-14, 16-18 and 21 are rejected under 35 U.S.C. 102(b) as being anticipated by Dumas.

As disclosed by Dumas in Fig. 7 a golf course may be set up in the manner claimed in claims 1, 3-5, 7-14, 16-18, and 21. The areas of the course not being played or the areas between fairways may be considered the central non-course region.

In response to applicant's arguments, it is again respectfully noted that the course as shown in Fig. 7 (not commented on by applicant) may be set up in the manner claimed. The directional arrows to the tee/green areas clearly indicate that a set of tee green areas may be played in a clockwise or counterclockwise direction. As one example of such a layout, note the perimeter tee/green areas shown in Fig. 7 excluding tee areas 27.

Concerning the central non-course region argument, to players playing a perimeter of Dumas' course the central area is a non-course region. Moreover, contrary to applicant's assertion, small areas between the interior fairways of Dumas are non-course regions surrounded by the tee/green areas constituting a course at the perimeter of Dumas' arrangement.

As a final point it should be noted that Dumas' course only need be capable of being played in the manner claimed. Applicant is claiming the course and not a method of playing it.

Concerning claims 7-9 as can be seen in Fig. 1 of Dumas tee areas may be aligned in all radial directions relative to the greens.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 6, 19, and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Dumas in view of Kokai. Dumas locates a clubhouse at an edge of the course. However, such may also be centrally located as disclosed by Kokai. It would have been obvious to one of ordinary skill in the art to so locate Dumas' clubhouse if it was desired to provide a more central location on the golf course.

Applicant's arguments filed 12/27/04 have been fully considered but they are not persuasive.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

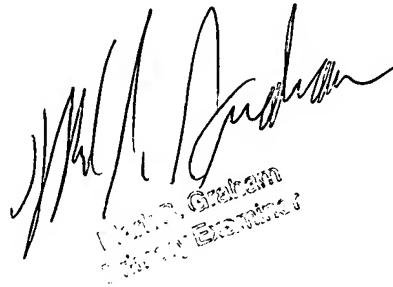

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 3711

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
